DORTMUND

Trade show for recycling technologies

“ Solids Dortmund was distinguished by the very good quality of the visitors. Potential and existing customers approached us with individual sketches and specific requests with a lot of substance. This allowed us to go directly into detail during the conversations. ”

John van den Akker, Shareholder Managing Director,
hightech ceram © R Dr. Steinmann + Partner GmbH

“ Our visit to Solids & Recycling-Technik Dortmund 2018 was very successful. We were able to get a comprehensive overview of the various suppliers that were exhibiting there. This enabled us to find the product we were looking for very quickly. ”

Ing. Guntmar Hilge, Development Engineer,
Vorwerk & Co. KG

Present your machinery, components and solutions for the diverse processing steps for granulates, powders and bulk materials at the heart of the country's economic powerhouse: North Rhine-Westphalia.

Solids processing

- Crushing
- Agglomerating
- Cooling, drying
- Separating, sieving
- Mixing

Materials handling

- Sorting, filtering
- Dosing, weighing
- Compressors
- Conveyor technology
- Measuring and control technology

Storage of solids

- Storage, packaging
- Silos, storage area technology
- Unloading technology
- Blending bed technology

Solids transport / Multi-modal systems

- Delivery, logistics, transport and loading technology, security
- Intelligent marking technology
- Coding and tracking systems

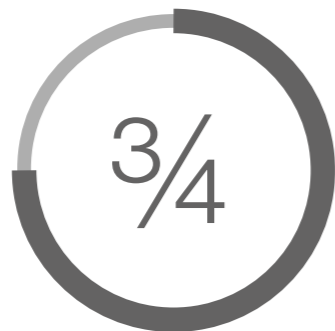

Safety and environment

- Explosion protection closures
- Dust filters, explosion and fire-protection equipment
- Metal detectors, protective housings for machinery
- Recycling, disposal
- Worker protection

Services

- Material analysis
- Lab tests
- Online measurement
- Simulation
- Quality assessment and control

MEET TRADE VISITORS WITH DECISION-MAKING AUTHORITY

of the trade visitors are technical and/or purchasing decision-makers and come with plans to make investments in products displayed by the exhibitors

Present your machinery and technical components for reclamation and environmentally-friendly disposal in the attractive, economically strong region of North Rhine-Westphalia.

Exhibition areas

- Products and technologies for collecting, sorting, transporting and processing materials
- Cross-cutting, measurement and control technologies, plus solutions for worker safety and waste-to-energy
- Machinery for material handling
- Trade in secondary materials
- Fire and explosion protection in recycling facilities
- Other services

Material groups

- Waste / residual materials
- Used tyres
- Building materials
- Biomass
- Glass
- Wood
- Plastics
- Paper / cardboard
- Scrap / metal

Your trade show presence – online and at the show!

“What especially distinguishes the trade show from other events is the lower workload for exhibitors in advance and at the trade show, as they only work with turnkey system stands and package pricing. I'm also looking forward to the new stand design 2020.”

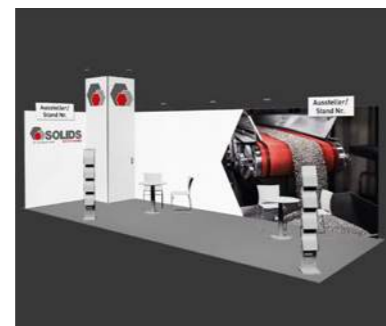

Manuel Carrillo Castillo, Head of sales, THM Recycling Solutions GmbH

ALL-INCLUSIVE STAND PACKAGES

Choose the package that works for you:

ALL-IN
15 - 23 sqm

ALL-IN PLUS
24 - 47 sqm

ALL-IN PREMIUM
FROM 48 sqm

PREMIUM PARTNERSHIPS

Become a Premium Partner and maximize your trade show opportunities!

- Exclusive opportunities for lead generation and follow-up
- High-quality package of services before, during and after the show
- Promotion and marketing via all the media associated with the show

Ask us about it! We'd love to help.

THE EASYGO MARKETING PACKAGE

The EasyGo Package is an integrated component of your participation and a key to your success. Select your preferred EasyGo package to increase your visibility and make leads – online and at the show.

Exhibit your machinery, components & solutions at the next **SOLIDS & RECYCLING-TECHNIK**
